Dear Managego,

This is a letter to express my interest in your Frontend Developer role. I have 2 years of professional experience working as a Frontend Developer. I have a passion for developing robust apps, and I feel I would be a perfect candidate for this role.

Building high performance, easy to use, user friendly applications is a passion of mine. It's important in this space to be at the cutting edge of technology, and it's my goal as a developer to have a growth mindset and continue to develop my skills. At my previous roles I collaborated with team members to come up with new ideas and effective solutions. This combination of teamwork, dependability, and technical skills would allow me to perform exceptionally well at the role.

The requirements you posted for this role align greatly with my experience and expertise. I would like to make a note of a few of them here:

- Strong working knowledge of HTML, CSS, React, and Javascript
- Extensive experience with Sass, Tailwind, and styled-components
- Strong grasp of NextJS, Redux, and React Router
- Used Javascript in other areas including Vue, ExpressJS, GraphQL, jQuery

Please contact me at any time via call or email. Thank you sincerely for both your time and consideration. I look forward to hearing from you.

Thank you,
Matt Closson
